Sodium Chlorate Crystals CAS 7775-09-9

Sodium Chlorate Crystals Description

CAS No.: 7775-09-9

EINECS No.: 231-887-4

Molecular formular: NaClO₃

Purity: 99.5% min

Application: mining industry, paper making, fireworks raw material

UN No.: 1495

Dangerous Cargo Class: 5.1

Sodium Chlorate Crystals Specification

Item	Specification
Purity %	99.5
Moisture %	0.30
Water insoluble %	0.01
Chloride(based on Cl) %	0.015

Sulfate(base on SO ₄), %	0.01
Chloride(based on CrO ₄) %	0.01
Fe(based on Fe) %	0.005

Sodium Chlorate Crystals Packaging & Shipping

Shipping Name---SODIUM CHLORATE

Hazard Class---5.1

UN/NA---UN1495

Packing Details: In 25kg or 1000kg net plastic woven bags. One 20'FCL=25MT

Sodium Chlorate Crystals Application

Use as fireworks, explosive, match and paper and pulp processing and calico printing and water purification. It is used also a weed killer and defoliant.
